

LIONWISE™ for HYBRID SHOPS

Affordable Point-of-Sale for Increased Profit & Controls

Get the Controls Needed to Run a More Profitable Business

LIONWISE's unique Hybrid Point-of-Sale (POS) system meets the needs of a wide range of retail and hospitality operations offering a powerful feature set that allows flexibility while still remaining easy to install and maintain. The LIONWISE hybrid system allows for the use of **BOTH Hospitality AND Retail POS modules on ONE software platform**. With the LIONWISE hybrid solution business owners and managers can manage costs, identify/correct errors, and track inventory.

Featuring a refreshingly simple and intuitive design, the LIONWISE software ensures that staff can easily, and effectively utilize the system without excessive training or expertise. LIONWISE gives owners/operators the controls to manage a more efficient operation by streamlining operations helping to reduce errors and increase efficiency.

 **LIONWISE**
advancing point-of-sale • enabling profitability™

LIONWISE™ POS - Everything you need, And nothing you don't™

Affordable . Reliable . Simple Point-of Sale Solutions

With a refreshingly simple and intuitive design, LIONWISE is the right Point-of-Sale solution for the owner/manager interested in managing their business with increased efficiency and controls without having to become a computer expert.

Developed on Microsoft's .NET Framework, LIONWISE POS is built from the ground up by a dedicated team with decades

of retail and software expertise. You can count on reliable and accurate results.

LIONWISE systems offer the functionality an operator needs to manage their business while maintaining a comfortable simplicity. With LIONWISE POS you get the real-time functionality of POS, including 24/7 HelpDesk support 365 days a year, without needing to break the bank.
